I nostri mobili da bagno sono costruiti prevalentemente con materiali naturali, quali legno e suoi derivati. Per la realizzazione dei mobili LINK, vengono utilizzati pannelli in truciolare idrorepellente e colle epossidiche speciali che rendono i prodotti idonei all'utilizzo anche in luoghi umidi in ambito domestico, come bagno o vano lavanderia. Pertanto si consiglia di adottare alcuni semplici accorgimenti per mantenere inalterata l'integrità del mobile e garantirne la durata nel tempo. I punti più critici sono solitamente fra il lavabo e i bordi dei cassetti, negli interstizi fra cassetti sovrapposti e all'interno dei cassetti stessi. Questi punti critici vanno dunque asciugati con panno asciutto dopo ogni utilizzo per evitare il permanere prolungato di acqua a contatto col mobile che può causarne il rigonfiamento. La nostra produzione con materie prime idonee a resistere all'umidità non esime dall'usare il prodotto con buon senso asciugandolo dopo l'utilizzo. E' vivamente sconsigliato l'utilizzo dei mobili per un uso commerciale / professionale, come in Bar, Alberghi, Ristoranti, ecc
